1.4 - Feedback System

1.4.1 - Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 - How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

Structured feedback related to curricular aspects is collected at different levels as follows 1. Board of Studies has student representatives, whose feedback is discussed and whatever suggestions are feasible are implemented. 2. Academic Council has student representation in rotation, wherein their inputs are sought for improvement in curriculum. Feasible suggestions are implemented. 3. Internal Quality Assurance Cell has student representation, whose inputs are utilized for quality improvement. 4. Feedback on Faculty teaching is collected and analysed for improvement in delivery process 5. Feedback from Alumni helps in bridging industry-academia gap 6. Feedback from Employers help in fine tuning the curriculum design and delivery and reduce industry academia gaps 7. Feedback from parents helps in better implementation of curriculum administration

2.3 - Teaching - Learning Process

2.3.1 - Percentage of teachers using ICT for effective teaching with Learning Management Systems (LMS), E-learning resources etc. (current year data)

Number of Teachers on Roll	Number of teachers using ICT (LMS, e-Resources)	ICT Tools and resources available	Number of ICT enabled Classrooms	Number of smart classrooms	E-resources and techniques used
2452	2452	14864	407	43	20

2.3.2 - Students mentoring system available in the institution? Give details. (maximum 500 words)

Teacher Guardian / Mentoring Scheme Objective - 1 . Enable newly joined students to accustom to the campus life 2. To facilitate mentoring for poor performers at any stage during the course Scope - Undergraduate students who join various professional courses of the University may face challenges with respect to change in setting, academic pressure or interpersonal relationships, all of which require guidance and support. This scheme is a unique initiative in that direction Beneficiaries - 1. All newly joined undergraduate students till they complete their first university exam 2. Students with special needs Functioning Of The Scheme - 1. At the time of admission to a new course in the University, every student and parent is briefed about the scheme 2. It is mandatory for all first year students to be enrolled into the scheme. 3. The number of wards under a Teacher Guardian / Mentor should be in the range of 5-10 4. At the time of orientation, the Teacher Guardian / Mentor should meet the parents of his/her ward, apprise them of the scheme and provide them the necessary

contact information such as his/her mobile number and e-mail ID 5. It is also necessary to ascertain the parent 6. Parents need to be told the importance of communicating with the Mentor regarding their ward 7. Parents also need to be informed about the use of the SIS portal that will give access to their wards performance with respect to attendance and grades 8. During the first 6 months of the course, the student should be instructed to contact the respective teacher guardian at least once a month, or more often if the situation demands 9. The student should keep the teacher guardian informed if he/she is going to be out of station, or is changing the place of residence 10. In case of minor ailments, the teacher guardian may direct the student to the Student Health Clinic for medical assistance. In case of hospital admission, it is preferable that the teacher guardians contact the parents and keep them apprised of the situation 11. The Teacher Guardians could use the SIS link on the MU portal to keep track of their wards 12. The Teacher Guardians will receive a monthly remuneration of Rs. 750 for the assignment 13. If the teacher has consistently shown inadequate contact with the student and is unable to establish rapport with a group of students, he/she should not continue in the scheme

With ever growing importance of Alumni in the development of the Institute, The Alumni Relation Office was set up. The objective of the Alumni office was to gather the information of our alumni and to create a database that will serve to improve interaction between the alumni and the Institute. The Office hosts frequent reunions for the alumni of different institutions and departments. The meets are gaining recognition from the alumni and the number attending is increasing steadily. The office also maintains a database of the Alumni using the available methods like Emails, Alumni portal on the University Website, Social Media like LinkedIn, Facebook etc. To maintain contact with the Alumni, the office sends regular Emails informing the developments going on in their Alma matar and also by sending Manipal Matters the e-magazine of the University quarterly. In addition to the Annual meets, the institute also has several Alumni visitors throughout the year. The alumni are received warmly and are shown around the campus to know the development that has happened at the different institutions. They are also requested to register on the alumni portal during their visit. To keep a record of these visits, a Visitors Book is maintained in the office. These alumni are expected to be ambassadors of the Institute and also help in connecting others to the office. The alumni are also encouraged to contribute positively to their respective institutions. It could be in the form of guest lectures, mentorship programs, reach outs, placements etc.

CRITERION VI - GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Given the significantly large scale of Institutional operation, and in order to ensure that the various Constituent Units are able to manage execution with agility, it is imperative that there is a high degree of decentralization and participative management in our institutional practice, which MAHE provides within its organizational strategic and structural framework MAHE provides a hub-and-spoke based support mechanism and facilitates empowerment for each of its constituent units. Every Constituent Unit proposes its institutional or departmental budgets, which is reviewed, approved and allocated centrally. However, every Unit is empowered to manage its budgetary spend, based on its annual operating plan, post such central allocation All Units are custodians of full functional freedom on all operational matters in routine administrative functioning. Besides managing their individual Unit based budgets, all staff requirements based on projections by the Unit leadership, once approved, are the responsibility of the said Unit leadership. The identification and recruitment of staff is the sole responsibility of the said Unit. There is central support provided through the office of the Human Resource department, however the power to select and appoint qualified staff, remains within the authority of the Constituent Unit. A case in point is the Department of Evaluations, which plays a vital role in ensuring that the evaluation and result management of all Constituent Units are provided a high degree of decentralization as is evident in the operational autonomy that is provided. The Department of Evaluations supports such autonomy in assessment, evaluation and publication of results for constituent units, within the ambit of its Standard Operating Procedural framework that the Department of Evaluations provides and monitors on an ongoing basis. The Department of Evaluations ensures support through Policy and by defining how the Process works. Based on operational complexity of the constituent unit, and its leadership capability, the Department of Evaluations empowers the said unit with the autonomy to manage its evaluation process and result publications. Constituent units can also initiate new programs and courses and manage their own academic calendar through their own offices. However, central support is continuously provided in areas such as admission management so that economies of scale and logistical efficiencies are taken advantage of. The Department of Evaluations provides policy guidelines and a structural framework within which each Unit needs to ensure operational rigor. Units are continuously audited within these guidelines, so as to keep a check on compliance and integrity of the various policy and process elements

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institution conducts internal and external financial audits regularly (with in 100 words each)

The Audit in MAHE is being carried out by external agencies who are appointed by the Finance committee. The Audit is by way of Internal Audit and Statutory Audit The Internal Audit from last 4 financial years has been entrusted to an external party. They carry out the audit for each quarter of the year. They are mainly into transactional audit which is done on the test basis. They look into the internal controls of the financial system. They highlight the deficiency in the system, if any and advice the Management for remedial measures. The Statutory Audit is carried out annually. In order to reduce the burden at the end of the financial year the external audit team visits at the end of six month .e. September and carries out the half yearly audit. Subsequently the Final audit is carried out in the month of June or July. The financials are prepared according to the prevailing laws. They are then approved by the Finance committee. Along with the above two Audits, University also has Audit of its PF Trusts and Gratuity trust, ISO Audit, Audit of the Research Grants and Audit of the conference and workshop conducted. Till to date there are no major observations from the external auditors or internal Auditors

6.5.2 - What efforts are made by the University to promote autonomy in the affiliated/constituent colleges? (if applicable)

Since University is a "deemed to be a university", a unitary university, there is no provision to grant 'autonomous status' to any of its constituent institutions. The overall administrative activities, operational issues and the overall control of constituent institutions are under the university leadership for all decision making purposes. Hence, all issues such as planning, strategic developmental issues, academic issues, administrative issues and financial control are vested with the university, under various and appropriate committees. However, institutions are

receiving unparalleled support and encouragement from the university in all their endeavors to provide holistic educational experience to their students, to create a benchmark for quality education and to leverage technology in teaching learning process. All constituent units of University have functional autonomy to carry on with the academic and administrative activities to ensure the vision and mission of the university and the institution are achieved.

7.3 - Institutional Distinctiveness

7.3.1 - Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The wealth of education is something which you cannot exhaust by giving - Padmashree awardee Dr T M A Pai The Manipal Academy of Higher Education was founded on the unshakable belief that it must make available the best of education to its students. The 60 year old legacy of excellence of MAHE is exhibited in its emphasis on providing holistic learning experience, which includes Research, Innovation and hands on experience. MAHE has taken meticulous and innovative steps to build reservoirs of intellectual wealth and academic excellence. MAHE has created some of the countrys best institutes across diverse streams like medicine, dentistry, engineering, pharmacy, hotel management and communication. Each institution at MAHE is geared to meet the same demanding standards to create great professionals and citizens. The strategies of growth have always been guided by MAHEs vision of global leadership and human development, excellence in education and health care. Its progress has also been shaped by its mission, which is to be the most preferred choice of students, faculty and industry and to be in the top 10 in every discipline of education, health sciences, engineering and management. The following illustrations display a wide range of distinctiveness across the diverse streams at MAHE. For instance, an engineering graduate, on graduation, is expected to have a skill set to find solutions to problems of the society. Along with the domain specific knowledge, other basic skills that are expected are Communication, Leadership, Teamwork, Problem Solving, Planning, Motivation and Enthusiasm, Adaptability and Flexibility, and Ability to Build Relationships. All these mandate engineering educations to be experiential, practical, relevant and up-to-date. Keeping this in mind, the idea of Major Student Projects was initiated, wherein, the institute provides infrastructure to build a technical project to compete in international competitions. An example of such an initiative was - Formula Manipal , a student engineering project comprising a group of undergraduate students aiming to

design, conceptualize, fabricate, test and race a single seater, open-wheel Formula Style race car. Since its first competition in 2008, the team has participated in competitions in Italy, UK, Austria, Germany and Czech Republic. Similarly, the start of - Team Manipal Racing , off-road racing club to design and fabricate All-Terrain Vehicles according to the rules laid by SAE BAJA. Further AeroMIT was initiated to design, manufacture, and fly a complex, stable, and portable model aircraft with minimal empty weight, maximum payload carrying capacity, RoboManipal was started with an aim of taking part in robotics competitions like Robocon. Parikshit Student Satellite Team aims to build nanosatellites. The other innovative student technical projects include Solar Mobil, Project Manas, Mars Rover Manipal, Thrust MIT, R.U.G.V.E.D., DRONAIID, MotoManipal and S.W.A.R.M. All these teams are interdisciplinary in nature, having student representation from first to final year On the same lines, the students of communication conduct NAMMA ANGADI, an annual sale of products made by Nammabhoomi, an NGO providing training to street children. It is conducted as a real event management project .
