

## PROGRAM OUTCOMES (PO)

The Program Outcomes of M.Tech. in Computer Networking & Engineering enable students to:

- **PO1:** Independently carry out research/investigation and development work to solve practical problems
- **PO2:** Write and present a substantial technical report/document
- **PO3:** Demonstrate a degree of mastery over the area as per the specialization of the program. The mastery should be at a level higher than the requirements in the appropriate bachelor program.
- **PO4:** Design network hardware architecture and software for wired and wireless communication networks
- **PO5:** Model and Simulate Network topologies using Network Elements to demonstrate and analyze the performance
- **PO6:** Apply concepts and processes to develop intelligent and secure networks
